

TRITAN™ TRANSPORTATION MANAGEMENT SYSTEM

One Source. Many Modes. Endless Solutions.

Flexibility and visibility are critical in shipping. TRITAN™, Mode Transportation's custom transportation management system, provides both in an integrated, end-to-end solution.

HOW DOES TRITAN™ HELP MEET YOUR TRANSPORTATION NEEDS?

Capacity, modal options and technology are important to an effective logistics program. But the key advantage to competitive transport today is information. Detailed, real-time transportation data — accessible when and where you need it — helps trim costs, reduce waste and constantly refine and adjust your services for peak efficiency.

TRITAN™ manages and monitors all your modes with a single, convenient online system. Whether you use truckload, less-than-truckload, intermodal or a combination of services, TRITAN's integrated platform gives you end-to-end functionality and shipment status for all aspects of the transportation chain.

TRITAN™ FEATURES

- ➔ Self-Service Customer Portal with 24/7 Web Visibility
- ➔ Real-Time Tracking/Tracing
- ➔ Automated Load Tendering and Bill of Lading Generation
- ➔ Capacity and Carrier Performance Management
- ➔ EDI, Web or HTML Communication
- ➔ Dispatch Planning and Exception Reporting
- ➔ Manifest and Individual Customer Invoicing and Auditing
- ➔ Multi-Location Shipment Management
- ➔ Online Order Entry and Rate Inquiry
- ➔ Scenario Optimization and Routing

THE ADVANTAGES OF TRITAN™

TRITAN's robust rating engine, open architecture and web-based access combine to provide you with the customized solution for your business – in a real-time environment. Mode Transportation's customers enjoy the advantages provided with this winning combination.

- ➔ **Real-time planning** with optimized single and multi-mode transportation solutions.
- ➔ **Simplified management of specialty shipments or complex transactions.**
- ➔ **Advanced carrier selection** based on each customer's unique requirements (i.e. contracts, past performance, etc.).
- ➔ **Increased shipper-customer communication.**
- ➔ **Improved customer service levels** through real-time shipment visibility.

KEY BENEFITS

TRITAN™, Mode Transportation's proprietary, web-based transportation management system, was developed exclusively for Mode Transportation customers. This system handles full shipment execution, including creating shipments and loads, determining carriers, tendering and tracking loads, and settling invoices. TRITAN™ gives you better visibility and flexibility, which will:

- ➔ **Shorten cycle times.**
- ➔ **Reduce errors** through improved reliability from start to finish.
- ➔ **Improve on-time pick-up and delivery.**
- ➔ **Reduce costs** through highly synchronized and optimized transportation management solutions.
- ➔ **Eliminate sub-optimal shipments.**

MODE TRANSPORTATION

Mode Transportation is an asset-light based third-party logistics company focused on delivering truck brokerage, less-than-truckload, intermodal and international services. Mode Transportation encompasses a vast network of operation centers across North America to meet our customers' needs. Mode Transportation is headquartered in Dallas and is a wholly-owned subsidiary of Hub Group.
